Four Reasons Why "Service" Is Part Of Our Name

Never A Wasted Trip

We do everything in our power to make sure you never leave our store unsatisfied. However, sometimes there are disappointments that are out of our control, such as when our suppliers are unable to fulfill their commitments, or when customer demand is greater than expected. When these situations arise, our Never-Out-Of-Stock program takes over to offer you...

- 1 a substitute selection at a comparable savings, OR
- 2 a check of availability at another store (if the item is in stock, it can be held for pickup at your convenience within 48 hours), OR
- 3 direct delivery of the item you want, from another of our stores straight to your door by UPS, at no extra charge (some restrictions apply, see stores for details).

Secure Clear™ Protects Against Eavesdropping

Secure Clear™ is a new feature that helps protect your privacy by preventing eavesdroppers from listening in on your calls. When you're in a public place, Secure Clear automatically activates a speakerphone mode that directs your voice to the speaker, away from the microphone. This helps prevent anyone nearby from overhearing your conversation. Secure Clear is available on many Motorola mobile phones. For more information, visit www.motorola.com/secureclear.

(1/1)THE COMPARATIVE PRICES SHOWN IN OUR CATALOG ARE ONLY A GENERAL GUIDE FOR REFERENCE PURPOSES TO THE RANGE OF NON-DISCOUNT SELLING PRICES IN THE MARKETPLACE WHERE THIS CATALOG IS DISTRIBUTED. The symbol (+) indicates manufacturer's suggested retail price. The symbol (+) indicates that a suggested list price was not available when the catalog was prepared and that we have determined full retail price by (1) comparing the full range of selling prices of that product or comparable products by other retailers (such as department stores, specialty shops, or other non-discount retailers) in the catalog distribution area, or by (2) reviewing the customary markup of non-discount retailers in these regions when the catalog was prepared. The reference price is not our present or former selling price. It does not necessarily represent the prevailing price of a product in any community on any particular day, but we believe it does not substantially exceed the highest retail prices at which the item or similar quality products are offered for sale in our catalog distribution area. The prices upon which all references are based may change during the life of this catalog due to market conditions or for other reasons. We encourage you to do your own price comparison, especially for a major purchase.
